MIGUEL ESQUIROL

SKILLS

I'm a frontend developer experienced in CSS, HTML and Javascript, responsive web design, UI and UX as well as some other technologies.

EXPERIENCE

Nventive, Montreal — *Frontend Developer*

August 2017 - PRESENT

- **Technology**: Bootstrap, Sass, Vue, Symphony, Drupal, Wordpress, Docker
- **Clients:** College de Rosemont, Cineplex, Prevost Volvo, National Geographic, CAA, etc.

Web Designer, Montreal — *Web Designer*

March 2012 - July 2017

- Designer with thousands of clients, small companies across the US and Canada.
- Responsible of design, code and client contact
- Worked with CSS3, HTML5, Javascript, jQuery, Wordpress
- Starting with a homegrown framework in Wordpress I designed and coded thousands of different websites.
- Responsible of e-commerce sites on several accounts (WooCommerce).
- Trainer of new junior designer on procedures, design and standards.
- Designer with the most clients and responsibilities on the company

Independent Web Designer, Montreal

2008 - Today

I worked directly with a graphic designer on different personal projects, non profit companies, and independent clients. I had the complete control of the code and the design of the site, as well as the hosting, maintenance and regular updates of the sites.

EDUCATION

The Ohio State University, USA — *Masters of Arts*

2006 - 2008

Universitat Ramon Llull, Spain — *Post Degree*

2005

Universidad Catolica Boliviana, Bolivia — *Masters of Arts*

1998 - 2002

Other Professional Experience

- I've been english teacher for adults in a Montreal institute and at university level at Ohio State University in Columbus, OH
- I have a spanish masters with experience in journalism and translation.
- Manager of several web-pages and online communities working both in content and design as well as the first Blog in Bolivia and the first database of bloggers on the same country.
- Worked with Databases (MySQL) and phpMyadmin for Wordpress based web pages and others.
- Worked as Information Technology Assistant, at the Universitat de Barcelona in Spain helping teachers and the administrative personnel with their computers
- Installed and fixed Windows and Mac computers and set-up class rooms with dozens of computers with the required software.
- Built and help maintain the computers and the network for a cibercafe I was co-owner, as well as to answer client requests and questions.
- Published daily for a year articles about software and technology for a developers community.
- I discovered and tested software, wrote manuals and how-to, and answered questions from the members of the community and help maintain it and make it grow.
- I've been using Linux (Ubuntu) for several years, testing new software and promoting open source environments, but I'm familiar with other environments and OS.
- My software of choice for coding (for the moment) is PHPStorm, Filezilla, Firefox on Windows, Linux and Mac Platforms. As well as Photoshop and Illustrator for design. But I'm flexible and learn quickly and can make my own research.
